

INTERNAL POLISHED REFLECTOR ON POST TOP KITS
CATALOG #INT-RF-BK

SPECIFICATIONS

All Internal Reflector units are designed to maximize lighting onto the roadway surface and direct the light source away from the house side of the street. Each unit can be modified to accommodate any post top or pendant type luminaire. All hardware provided is fabricated from aluminum to provide protection against the harsh outdoor elements.

FINISH

Each Internal Reflector unit is carefully fabricated from aluminum. All Internal Reflector units are specially cut to size then highly polished allowing for maximum reflectivity for specified lighting performance. All brackets and hardware provided are aluminum and stainless steel.
