MANUFACTURERS OF QUALITY ROADWAY PRODUCTS

SOFFIT LUMINAIRE GLASS REFRACTOR

FEATURES:

- Meets the California Department of Transportation requirements for Soffit Luminaire Refractor.
- Each Glass Refractor precisely directs the light source producing uniform surface and pavement illumination.
- The Refractor consists of thick prismatic borosilicate heat resistant glass to withstand high temperatures and any type of vibration that may occur.
- Each Glass Refractor is clearly identified and keyed as to the street side for quick and easy installation.
- Each Glass Refractor can be used in conjunction with any high pressure sodium or metal halide lamps to ensure proper light distribution and visual comfort.
- Also available is the high temperature rated neoprene gasket to ensure a weathertight seal for maximum protection against the elements.

PRISMATIC GLASS REFRACTOR

*CALTRANS APPROVED
